## Credit Repair With This Simple System. Get Rid of Your Bad Credit and Debts Forever"

Retail Price 295.00

Your Price: **FREE**

GIVE ME A FEW MINUTES OF YOUR TIME AND I WILL SHOW YOU HOW TO INCREASE  
YOUR CREDIT SCORE SUBSTANTIALLY VERY QUICKLY

**Did You Know:**

- 1) Under section 15 U.S.C. § 1681s of the FCRA, a wronged party may collect \$1000 for each willful or negligent act which results in the violation of the FCRA (fair credit reporting act). Any person may file suit in local court to enforce the FCRA. **I will show you how to use this fact to make the credit bureau's remove items just because they don't want to go to small claims court.**
- 2) In 2000 the Federal Financial Institutions Examination Council (FFIEC) clarified guidelines on re-aging accounts for delinquent borrowers. **I will show you how to use this fact to take advantage of this legally**
- 3) There are "soft" and "Hard" Inquires on your report. **I will show you how to remove them.**
- 4) Due to conflict of interest **all credit report disputes** go through a company called **OSCAR**. **I will show you how to take advantage of this fact.**

Remember, if you have any problems you can always email me for support. I take credit repair very seriously.

5) Some fraction of consumer credit reports contain errors. A study released by the U.S. Public Interest Research Group in June 2004 found that 79% of the consumer credit reports surveyed contained some kind of error or mistake.. As a result, many consumers frequently invoke their rights under the FCRA (Fair Credit Reporting Act) to review and correct their credit reports.

6) **VantageScore** is the name of a new credit rating product that is now being offered by the three major credit bureaus (Equifax, Experian and TransUnion). The new product was announced by the three bureaus on March 14, 2006. It is essentially a way for the three bureaus to rival the current dominant player in

credit scores (**Fair Isaac** with their "**FICO Score**"). **I will show you how to take advantage of this fact.**

7) Unlike FICO's traditional 300 to 850 scale, the VantageScore goes from 501 to 990

8) All incoming letters to the credit bureaus are categorized using a point system rating of importance. **I will show you how to have your letters score high.**

**The First Question I get from everyone wanting to repair their credit is:**

**Should I use a law firm to Send Dispute Letters and Repair my Credit?**

My Answer is always **Absolutely NO**.....Here's why

1) These so called law firms don't care about your credit at all.

2) You pay them monthly. Do they really want your credit to get better. Then they lose the monthly income. This would not make any financial sense at all. They want to delay any credit repair as long as possible. They will try and string you along by getting an inquire removed. The average customer will stay paying the monthly fee for 6 months.

3) They are dispute mills that don't work

4) You do all the work and they send out some generic letter

5) The credit bureaus know these companies and get thousands of letters from them. **They file them under frivolous challenges. I know I used to do it**

**6) If you got thousands of form letters from a company every day wouldn't you send them back a form letter. We at the bureau knew the law firms just wanted the longest delay possible. Why? So they can make the most money of course. It is sort of like one hand washes the other. Unfortunate but absolutely true!**

**If you use one of these so called law firms you will see little if any response from the credit reporting agencies. In a few months you will have realized you have wasted your time and money.**

## Well Enough Facts Lets get Down to Business

Ok, Lets start at the beginning. Recently you have probably found out your credit is not the greatest. It might not be your fault or it might be.

Your looking around the internet trying to get someone to repair your credit or perhaps you are thinking about doing it yourself.

I first started working in the credit business many years ago. My first job was working as a loans officer for a national bank. My job was to get financing for people with very shaky credit.

Much of my pay was commission based. This really drove me to help people get the loans they needed. The only way to do this was to rapidly increase their credit score.

At first this seemed impossible but after a chance encounter with a man named Tom Bradley things started to change. Tom worked at a national credit bureau and we met at a business convention about mortgages.

**Tom showed me many techniques on (TM)Rapid Rescoring and Quick Credit Repair Techniques.** Well because of my success at funding these hard to get loans I was given a promotion to loans manager.

Tom and myself stayed in touch and a few years before he retired he got me a job at his credit bureau. When I first got there I was very surprised at how high up in the company he was. He took me under his wing and that's when school got kicked into high gear.

We worked 12 hour days and every second Saturday. Talk about a lesson on the credit industry. He showed me things that would be the difference between someone losing their house or not. **It was very powerful stuff.**

I could go on and on here about my experience working as a credit bureau manager or how I was a loans officer for 6 years but I won't bore you with all the details. **This really is not about me anyways. It's about you and your credit. You can choose to believe me or not.**

## "Fix Your Credit Fast With This Simple

Approve Me!

# System. Get Rid of Your Bad Credit and Debts Forever"

Hey listen up! Give me a minute and I will change your credit situation like you will not believe.

Those credit bureau's destroy peoples lives. They track everything about everyone and they don't let people know how they are calculating scores. It's so stupid. They sell your information to everyone willing to pay. They tell everyone they can't change their scores. They tell you to just forget about that house or car or better job. Or they make you pay crazy interest rates.

I got so sick and tired of seeing these stupid scores ruining peoples lives. Don't get me wrong the bureau I was working for paid me a lot of money. After a while though I couldn't live with myself, it became harder and harder to get a good nights sleep.

Well it's your lucky day. You are about to get the insider information to boost your fico score through the roof.

Have me a former credit bureau manager reveal the legal way to jump your credit score through the roof.

Good credit is essential in America today, and there is a network of credit reporting agencies that keep track of your current credit rating and check your credit worthiness every time you apply for a loan, credit card or any other type of credit. If you feel overwhelmed and confused by your credit situation, this proven credit repair system will amaze you.

## The Internet,

it's tough to know who to believe. There are so many people making ridiculous claims, it's insane. It's like day after day, you get hit with hype pitch after hype pitch. In a moment, I'll tell you specifically what I can do for you. But first, here is why you should believe me to begin with:

### Here are 4 good reasons to believe what I say:

**One:** I've been in this business for a very long time. My kind of experience is very rarely matched. Many bankers and even credit bureau professionals do not know many of these techniques.

**Two:** I am not asking you for some large investment that is going to make me rich and you poor.

**Three:** I hate the credit bureau's. They track our every move, they should be illegal. Working for one I learned all their little secrets.

**Four:** How many of these people selling these so called kits have been on the inside. My guess is none after reading the garbage in most of these packages. **You won't find me hiding behind some PO box.**

You'll learn what they don't tell you about your "credit", your "credit score", and your "credit habits"... It's much more than just repairing your "credit report"!

I'll also show you the steps for removing negative items from your credit report using the secrets, tips, and techniques that credit repair companies use to repair credit. Because of your lack of credit knowledge, they can charge hundreds of dollars for something that you can, and should, do yourself for a few bucks, sometimes even free.

**Did You Know That:**

- There are 3 National Credit bureau's
- They do not share information. Credit bureau's are businesses. It is not in their best interest to share information with competitors (other bureau's). This is one big advantage to you.
- Credit bureau's all compile their own score for you. This is commonly called your FICO score.
- FICO stands for Fair Isacc Company. This company developed the software that the 3 main bureau's use to calculate your credit score.
- When you purchase a big item such as a car or house the financial institute will pull your credit from all 3 bureau's and take your middle score as your FICO score.
- Most banks and large financial institutes report late payments etc with all 3 bureau's. Most smaller companies only report to one. This is due to

- cost restrictions. Most smaller companies are under a contract with a particular bureau. For example if you don't pay a phone bill it will most likely only show up on one bureau's report.
- Your FICO score is a formula that can be manipulated to your advantage if you know how the formula is calculated.

**I will show you how to manipulate your score and jump it so fast your head will spin!**

"The Bad Credit Government Grants Application Guide"

Retail Value \$195.00

Government Cash Grants are money that **you never** have to pay back... find the money you need!

**Do you have bad credit or have you filed for bankruptcy?**

Then a Private Foundation Cash Grant could be the answer to your financial needs. Remember, this is interest-free money that **you never have to pay back.**

- **Bank rejections are an unfortunately all-too-familiar story.** Why not try a different solution? Whether you need money

for small business startup or expansion, debt consolidation, education, real-estate, personal use, or medical expenses... **free grant money can be used for any worthwhile purpose.**

- Every year, **private foundations and philanthropists give away billions of dollars to individuals** in genuine need of money. Most foundations are set up as non-profit organizations for income tax purposes, dedicated to help individuals and the general welfare of our society. Did you know that in the United States, money in the form of free cash grants has been given away for well over one hundred years?

- **Every day** people are getting cash grants in the mail. This money is **100% interest-free** and never has to be paid back in any way. It's free!

**Receiving a cash grant in the mail** is perhaps a lot easier than you might think.

While there may only be a handful of private foundations in your area - there are literally **1,000's of private foundations** and non-profit organizations across America who are ready and willing to send money to those who have a genuine need for it.

- We cannot guarantee everyone a free cash grant in the mail. However, it is a known fact that **Private Foundations approve cash grants at a much higher rate of approval than getting a small loan from a local bank.**
- Have you been turned down from receiving a loan by a local bank because of poor credit, no credit or bankruptcy? **Private Foundations are not interested in credit ratings, only demonstrated need.** It is much easier to receive a grant by mail from a Private Foundation than a local bank, because they are much more lenient. Imagine getting a check, payable to you, in the mail! **Money you never have to pay back!**

Ü **How to buy properties, without every worrying about the possibility of losing money- because you won't be spending a dime of your own money!** You may have heard of this "strategy" before, but I'll show you exactly how to keep your money in your pocket, and never have to pull it out. **(Pg. 20)**

Ü **Why MOST Real Estate Entrepreneurs fail miserably, when they try to purchase properties as an investment.** The hype you hear from most Real Estate courses, leads you to believe that anyone can become instantly wealthy

from Real Estate investing. Don't fall for this bunch of lies. We'll show you specifically how to avoid this trap. (Pg. 34)

Ü **How to easily get all the Real Estate BUYERS you can handle to purchase ALL of your acquired property- and never spend a penny on advertising. (Pg. 43)**

Ü **How to close on 2 to 3 times more properties, and get an unfair advantage over others in the industry and literally force people to come to YOU.** (HINT: Anytime there is DEMAND for a product, there is going to be COMPETITION...but you can become the "Deal Magnet". Learn how inside.) (Pg. 46)

Ü **Build a massive income stream that comes in every month, even if you don't work!** (And I'm not talking about being a landlord, or even owning rental properties! I promised I wouldn't do that to you, and I meant it!) (Pg. 51)

Ü **How to make \$5,000, \$10,000 or \$25,000 per month- just to keep you in a little money while you wait for the BIG checks to roll in!** (HINT: Trust us when we say, you've NEVER seen anything like this.) (Pg. 53)

Ü **Find more deals than you can possibly imagine!** Finding the deals is easy when you know where to look and what to do when you find them! (Pg. 60-69)

Ü **A vital component to your success that can take you from a measly income, to a massive 7-figure annual windfall!** Most courses don't even talk about this element, but without it, you'll NEVER reach the level of income you deserve. (Pg. 72)

Ü **Escape the time trap and work ON your business, not IN your business.** Why renting property is the quickest way to lose your shirt! (Pg. 90)

Ü **Give a Seller TOP-DOLLAR for their property, turn a quick deal, and still make more money than most people make in a YEAR!** This is the key to the vault that 99.9% of active real estate investors never learn- and you get it here and now! (Pg. 101)

### **And That's Not All. . . Not By a Long Shot**

What if I told you that you could set up streams of income that would keep coming in whether you work or not? Well it's true! That's right, you can make up to \$20,000 per month, every month;

- **Without: Risking Your Personal Credit (No one will ever even check it!)**
- **Without: Risking Your Life's Savings (You won't even write a check!)**
- **Without: Working With Partners (Who needs 'em?)**
- **Without: Dealing With Banks (No begging, no red tape, and no delays!)**
- **Without: Being a Landlord (No headaches and no time wasted!)**

And once the wheels have been set in motion, the profits are automatic! They keep coming in month after profitable month whether you keep working or not! Once you learn our system, you'll see so many deals, so many opportunities, that you won't believe how much money you passed up doing it the old, slow way!

Believe me; if I wanted to, I have the money for down payments. Heck, I could buy the houses with cash, but; I never put my money down on property- EVER!
